PROFESSIONAL EXPERIENCE

Technical Support

April 2025 - Current

Foundever

- **Customer Issue Resolution:** Handled a high volume of inbound calls, diagnosing a wide range of technical issues through methodical questioning and troubleshooting techniques.
- **Solution-Oriented Support:** Provided step-by-step guidance to customers, empowering them to resolve problems with their hardware, software, or services, which increased first-call resolution rates.
- **Customer Satisfaction & Feedback:** Consistently transferred customers to the post-call survey, demonstrating a commitment to measuring and improving the customer experience. This process provided direct feedback on my performance and service quality.
- **Knowledge Management:** Documented customer interactions and solutions clearly in the company's CRM system, contributing to the knowledge base for future reference and team training.
- **Performance Metrics:** Consistently met or exceeded key performance indicators (KPIs), including call handle time, customer satisfaction (CSAT) scores, and first-contact resolution (FCR).
- **De-escalation:** Effectively managed frustrated or upset customers by demonstrating empathy, patience, and professionalism, turning negative experiences into positive ones.

Monitoring Staff
